## NORWAY

### Initial offer to the Services Negotiations

The following initial offer has been received from the delegation of Norway on 31 March with the request that it be circulated to Members of the Council for Trade in Services.

---

At the Ministerial Conference in Doha, Members agreed that initial offers should be submitted by 31 March 2003.

Please find enclosed Norway's initial offer to the Services Negotiations. Initial offers of improvements in Norway's schedule of specific commitments are indicated in this document by strikethrough for deletions, while new text is underlined.

This document contains:

- Initial offer of specific commitments
- Additional Commitment by Norway for Telecommunications services
- Notes to maritime transport
- MFN-Exemption list
- List of Energy Related Services

Norway reserves the right to revise or supplement this initial offer at a later stage.

## NORWAY – INITIAL OFFER OF SPECIFIC COMMITMENTS

Modes of supply:      1)      Cross-border supply      2)      Consumption abroad      3)      Commercial presence      4)      Presence of natural persons

<b>I. HORIZONTAL COMMITMENTS</b>			
<p>ALL SECTORS INCLUDED IN THIS SCHEDULE</p> <p>All sectors: Establishment - General authorization procedures for acquisition</p>		<p><del>3) Corporations registered in Norway, where more than 1/3 of the voting rights are controlled by non-nationals or foreign controlled companies, or where the chairman and the majority of the board members are non-nationals, are subject to concession when acquiring real estate or entering into certain lease contracts with regard to such objects</del></p> <p><del>Foreigners and foreign-controlled companies in Norway need a concession for purchases of real property, whether building and/or land, without regard to the purpose for which the property will be used</del></p> <p><del>Leases of real property for a period of more than 10 years are subject to concession requirement. If the property is to be used for manufacturing purposes, a concession is required without regard to the lease period.</del></p>

		<p>3),4)<del>Foreign citizens residing in Norway who purchase or lease real property for housing, secondary residences and business activities without a concession, are subject to the condition that the real property is acquired for their own personal use. A foreign citizen that purchases or leases real property as a secondary residence must apply for a concession if the citizen neither lives in Norway, nor has been living in Norway for at least five years.</del></p> <p><del>A concession can only be granted when it is not contrary to the public interest. An acquisition is normally judged on the impact it will have on future activity and employment in the company and the society as a whole. Legislation governing acquisitions has traditionally been liberally applied. It authorizes the setting of conditions, in a large majority of the cases involving over 1/3 of foreign ownership related to voting shares. Conditions are largely standardized. Two conditions are regarded as important and are stipulated in most cases: a majority of the board and its chairman must be Norwegian nationals and, the transactions between the Norwegian company and the foreign owner must be based on OECD's principle of arm's length prices.</del></p>	

Modes of supply: 1) Cross-border supply 2) Consumption abroad 3) Commercial presence 4) Presence of natural persons

Sector or Sub-sector	Limitations on Market Access	Limitations on National Treatment	Additional Commitments
All sectors: Treatment of branches and agencies	3) None	<p>3) Treatment accorded to subsidiaries of third country companies formed in accordance with the law of an EEA Member State and having their registered office, central administration or principal place of business within an EEA Member State may not be extended to branches or agencies established in an EEA Member State by a third-country company</p> <p>Treatment less favorable may be accorded to subsidiaries of third-country companies formed in accordance with the law of an EEA Member State having only their registered office in the territory of an EEA Member State unless they show that they possess an effective and continuous link with the economy of one of the EEA Member States</p>	
All sectors: Formation of legal entity - limited liability company, foundation	3) None	<p>3) The <del>general manager managing director</del> in a joint stock company, <u>and</u> at least half of the <del>founders</del>, of the members of the board of directors, <u>and</u> of the corporate assembly <del>and of the committee of representatives</del> must be residents of Norway <del>and have resided there for the last two years. The Ministry of Industry and Energy may, unless the Ministry of Trade and Industry grants exemptions in each individual case. These requirements do not apply to citizens of states which are parties to the EEA agreement if they are residents of such a state from these rules.</del></p>

## **Additional Commitment by Norway for Telecommunications services**

### Scope

The following are definitions and principles on the regulatory framework for the basic telecommunications services.

### Definitions

Users mean service consumers and service suppliers.

Essential facilities mean facilities of a public telecommunications transport network and service that

- (a) are exclusively or predominantly provided by a single or limited number of suppliers; and
- (b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

- (a) control over essential facilities; or
- (b) use of its position in the market.

### 1. Competitive safeguards

#### 1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

#### 1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

- (a) engaging in anti-competitive cross-subsidization;
- (b) using information obtained from competitors with anti-competitive results; and
- (c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

## 2. Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier.

### 2.2 Interconnection to be ensured

Within the limits of permitted market access, interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided<sup>2</sup>:

- (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favorable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates<sup>3</sup>;
- (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- (c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

### 2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

### 2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

---

<sup>2</sup> Suppliers of services or networks not generally available to the public, such as closed user groups, have guaranteed rights to connect with the public telecommunications transport network or services on terms, conditions and rates which are non-discriminatory, transparent and cost-oriented. Such terms, conditions and rates may, however, vary from the terms, conditions and rates applicable to interconnection between public telecommunications networks or services.

<sup>3</sup> ~~Different terms, conditions and rates may be set in Norway for operators in different market segments, on the basis of non-discriminatory and transparent national licensing provisions, where such differences can be objectively justified because these services are not considered 'like services'.~~

2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

- (a) at any time or
- (b) after a reasonable period of time which has been made publicly known

to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

3. Universal service

Any Member has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Member.

4. Public availability of licensing criteria

Where a licence is required, the following will be made publicly available:

- (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence and
- (b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

5. Independent regulators

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. Allocation and use of scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

## ATTACHMENT

### NOTES TO MARITIME TRANSPORT

"Reasonable and non-discriminatory terms and conditions" means, for the purpose of multimodal transport operations, the ability of the multimodal transport operator to arrange for the conveyance of its merchandise on a timely basis, including priority over other merchandise which has entered the port at a later date. A "multimodal transport operator" means the person on whose behalf the bill of lading/multimodal transport document, or any other document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.

1. "~~Cabotage~~ Domestic transport" is defined as maritime transport of goods and passengers between ports in Norway, including locations on the continental shelf where petroleum is explored or produced.
2. "Other forms of commercial presence for the supply of international maritime transport services" means the ability for international maritime transport service suppliers of the other members to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service, within which the maritime transport constitutes a substantial element. (This commitment shall however not be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery).

These activities include, but are not limited to:

- (a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
- (b) the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inland transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated service;
- (c) the preparation of documentation concerning transport documents, customs documents, or other documents related to the origin and character of the goods transported;
- (d) the provision of business information by any means, including computerized information systems and electronic data interchange (subject to the provisions of the Annex on telecommunications);
- (e) the setting of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal

commitment on movement of personnel) with any locally established shipping agency;

- (f) acting on behalf of the companies, organizing the call of the ship or taking over cargoes when required.

3. "Maritime cargo handling services" means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organized independently of the stevedoring or terminal operator companies. The activities covered include the organization and supervision of:

- the loading/discharging of cargo to/from a ship;
- the lashing/unlashing of cargo;
- the reception/delivery and safekeeping of cargoes before shipment or after discharge.

4. "Customs clearance services" (alternatively "customs house brokers' services") means activities consisting in carrying out on behalf of another party customs formalities concerning import, export or through transport of cargoes, whether this service is the main activity of the service provider or a usual complement of its main activity.

5. "Container station and depot services" means activities consisting in storing containers, whether in a port area or inland, with a view to their stuffing/stripping, repairing, and making them available for shipments.

6. "Maritime agency services" means the activities consisting in representing, within a given geographic area, as an agent the business interests of one or more shipping lines or shipping companies, for the following purposes:

- marketing and sales of maritime transport and related services, from quotation to invoicing, and issuance of bills of lading on behalf of the companies; acquisition and resale of the necessary related services, preparation of documentation, and provision of business information;
- acting on behalf of the companies organizing the call of the ship or taking over cargoes when required.

7. "Freight forwarding services" means the activity consisting of organizing and monitoring shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information.

8. "Other supporting and auxiliary transport services" means freight brokerage services; bill auditing and freight rate information services; transportation document preparation services; packing and crating and unpacking and de-crating services; freight inspection, weighing and sampling services; and freight receiving and acceptance services (including local pick-up and delivery).
