

GATS 2000

REQUEST FROM THE EC AND ITS MEMBER STATES (HEREAFTER THE EC)

TO

ARGENTINA

GENERAL REMARKS

At the WTO Ministerial Conference in Doha in November 2001, Ministers agreed that initial requests for specific commitments should be submitted by 30 June 2002.

In line with this decision, and committed to the objectives and principles stated in the GATS, in particular Article IV and XIX GATS, as well as the negotiating guidelines agreed by the Council for Trade and Services on 29 March 2001, the EC encourages Argentina to participate actively in the negotiations.

The EC considers that the progressive liberalisation of services is of benefit for all members, including developing and least developed countries. In this context, the EC recognises the importance of liberalisation being underpinned by domestic regulatory frameworks designed to ensure the achievement of public policy objectives.

This request covers horizontal commitments, MFN exemptions and the following service sectors:

- Professional Services
- Business services (Other than Professional services)
- Postal and courier services
- Telecommunication services
- Construction and related engineering services
- Distribution services
- Environmental services
- Financial services
- News agency services
- Transport services
- Energy services

The EC proposes that Argentina's current GATS commitments are revised in accordance with this Request. The EC is both seeking improved commitments and clarification of existing commitments as set out in this Request. The EC is furthermore looking for a reduction in scheduled limitations whether these are

horizontal or sector specific in nature. In so doing, the EC is not seeking the dismantling of public services nor the privatisation of state owned companies.

In conformity with the objectives set out in the EC's overall approach to services negotiations (document S/CSS/W/15), the EC reiterates its commitments to promote regulatory disciplines in accordance with Article VI:4 of the GATS. The EC, however, reserves its right to address at any time to Argentina specific requests concerning regulatory issues.

The EC further requests that commitments are entered in accordance with the scheduling guidelines adopted by the Council of Trade in Services on 23 March 2001 (S/L/92). In particular, for each commitment or limitation entered the EC requests:

- that the sector and sub-sector are clearly identified in accordance with the classification list in Document MTN.GNS/W/120 or other internationally recognised classification (e.g. Financial Services Annex) and corresponding CPC number. If this is not possible, the schedule should contain a sufficiently detailed definition to avoid any ambiguity as to the scope of the commitment. In that respect, the EC would like to recall the classification or list of activities proposed in its negotiating proposals with regard to postal and courier, environmental and energy services. While discussions on classification in these sectors are still ongoing, the EC would like to invite Argentina to present its offer in accordance with this approach.
- that any remaining limitation on market access (hereafter "MA") or on national treatment (hereafter "NT") are clearly described and only be inscribed in the market access or national treatment columns if the measure is of a nature foreseen by Articles XVI-XVII GATS.

The EC remains available to provide any clarification and answer any question on this Request. Questions can be addressed to the European Commission via the EC contact point (mailbox address: TRADE-GATS-CONTACT-POINTS@cec.eu.int), via the Delegation of the European Commission in Geneva, or directly to the European Commission (Directorate-General Trade, Unit D2 (Trade in services, including e-commerce), Brussels, B-1049, Belgium, fax 32-2-299 24 35).

Note : The EC reserves the right to revise and/or supplement this Request. For each service sector, W120 classification has been followed unless expressly indicated and CPCs refer to the Provisional CPC classification. The precise scope for each sector is without prejudice to the EC's final positions on classification issues and to the EC's classification of their existing commitments.

HORIZONTAL COMMITMENTS

EC REQUEST TO ARGENTINA

MODE 3

Unbound for acquisition of land in frontier areas (150 km. in land frontier areas and 50 km. in coastal areas).

EC Request: Eliminate this restriction as applied to coastal areas and reduce substantially the geographical area of application for land frontier areas.

MODE 4

Intra-corporate transferees

An intra-corporate transferee (ICT) is an employee of a foreign firm, who is temporarily transferred to an affiliate of that firm (branch, subsidiary, office, joint venture etc.) in your country.

The EC considers that Argentina's horizontal Mode 4 commitments cover intra-corporate transfers of "managers", "executives" and "specialists" without application of either quantitative restrictions or economic needs tests.

EC Request:

- Please confirm this understanding and clarify whether there are any limitations in relation to the degree of affiliation which must exist between companies, the length of stay or minimum prior employment requirements.
- The EC requests that a commitment be made to allow as intra-corporate transferees without requiring an economic needs test « persons with a university degree or equivalent technical qualification who are transferring for career development purposes or to obtain training in business techniques or methods ». The maximum prior employment requirement should be one year.

Business Visitors

A Business Visitor is a representative of a foreign services supplier who is seeking temporary entry into your country for one of the following purposes: (a) to hold meetings and/or to negotiate the sale of services; (b) to conclude contracts to sell services; (c) to set up a Mode 3 presence. A Business Visitor does not himself directly provide services or sell to the public.

The EC considers that Argentina's horizontal Mode 4 commitments cover Business Visitors who are "managers", "executives" or "specialists" without application of either quantitative restrictions or economic needs tests. **EC Requests:**

- Please confirm this understanding.
- For Type (a) and (b) Business Visitors extend the commitment to all such Business Visitors. The maximum length of stay should be at least 90 days in any 12 month period.
- For other Business Visitors, clarify whether there are any limitations on the length of stay.

Other

The EC considers that Argentina's horizontal Mode 4 commitments cover the provision of services under contract where the service supplier has no commercial presence in Argentina and where that service is provided by "managers", "executives" and/or "specialists". **EC Request:**

- Please confirm this understanding and clarify whether there are any limitations on the length of stay.

Additional commitments.

- Difficulties are experienced as a result of the length of time taken to process work and residence permits as well as with apostollisation and notarisation of documents. The EC wishes to discuss the possibility of taking additional commitments to address these issues.

Note: Mode 4 is covered horizontally in this part for all service sectors. The sectoral requests in the following pages only refer to mode 4 when specifically related to one particular service sector.

- 5) **Definitions** – commit definitions as specified in the model schedule.

The EC also request the following additional maritime commitments from Argentina:

“9. Movement of own equipment. International maritime transport suppliers can move/reposition their own equipment (i.e. empty containers, flatbeds etc.) on their own vessels between ports of Argentina.”

- 7) **International cargo.** With the development of containerisation and high frequency networking services and with the ever-larger vessels having to limit direct port calls for physical or economic reasons, the feeding of cargoes between main ports and way ports is becoming more important as an integral part of efficient international maritime transport. An international maritime transport supplier should be allowed to operate feeder services for its international cargo between ports of Argentina. This is requested to be committed in a new footnote:

“10. International maritime transport suppliers can operate vessels of any flag for the purposes of pre- and onward carriage of the international cargo between ports of Argentina.”

In this context Argentina may wish to take the one or more of the following principles into concern:

- Size of the port. Only valid for international cargo relayed between national ports handling more than [25.000 TEU] on an annual basis.
- Binding existing ad hoc practices. To the extent exceptions are already granted for use of foreign flagged vessels such practices could be bound to explicitly cover pre- and onward carriage of international cargo.
- Geographical limitations: Transport of international cargo between ports within the same province [or other regional entity] remains excluded.

A final request related to maritime transport is:

8) Rental and leasing of vessels with crew (CPC 7213, 7223).

DEFINITIONS

1. Without prejudice to the scope of activities which may be considered as « cabotage » under the relevant national legislation, this schedule does not include « maritime cabotage services », which are assumed to cover transportation of passengers or goods between a port located in ... (name of country or, for EEC, « a Member State ») and another port located in ... (This commitment shall however not be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery).

These activities include, but are not limited to:

- (a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;

3. « Multimodal transport operators » means the person on whose behalf the bill of lading /multimodal transport document, or any other document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.
4. « Maritime cargo handling services » means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organised independently of the stevedoring or terminal operator companies. The activities covered include the organisation and supervision of:
- the loading/discharging of cargo to/from a ship;

Activities are also related to “other management consulting services” (CPC 86509) and activities separately specified under “other management services not elsewhere classified”(CPC 86609).
