GATS 2000

**REQUEST FROM THE EC AND ITS MEMBER STATES
(HEREAFTER THE EC)**

TO

ECUADOR

GENERAL REMARKS

At the WTO Ministerial Conference in Doha in November 2001, ministers agreed that initial requests for specific commitments should be submitted by 30 June 2002.

In line with this decision, and committed to the objectives and principles stated in GATS, in particular Article IV and XIX GATS, as well as the negotiating guidelines agreed by the Council for Trade and Services on 29 March 2001, the EC encourages Ecuador to participate actively in the negotiations.

The EC considers that the progressive liberalisation of services is of benefit for all members, including developing and least developed countries. In this context, the EC recognises the importance of liberalisation being underpinned by domestic regulatory frameworks designed to ensure the achievement of public policy objectives.

This request covers horizontal commitments, MFN exemptions and the following service sectors:

- Professional services
- Business services (other than professional services)
- Telecommunication services
- Construction and related engineering services
- Distribution services
- Environmental services
- Financial services
- Tourism and travel related services
- News Agency services
- Transport services
- Energy services

The EC proposes that Ecuador's current GATS commitments are revised in accordance with this request. The EC is both seeking improved commitments and clarification of existing commitments as set out in this Request. The EC is

furthermore looking for a reduction in schedules limitations whether these are horizontal or sector specific in nature. In so doing, the EC is not seeking the dismantling of public services nor the privatisation of state owned companies.

In conformity with the objectives set out in the EC's overall approach to services negotiations (document S/CSS/W/15), the EC reiterates its commitments to promote regulatory disciplines in accordance with Article VI:4 of the GATS. The EC, however, reserves its right to address at any time to Ecuador specific requests concerning regulatory issues.

The EC further requests that commitments are entered in accordance with the scheduling guidelines adopted by the Council of Trade in Services on 23 March 2001 (S/L/92). In particular, for each commitment or limitation entered the EC requests:

- that the sector and sub-sector are clearly identified in accordance with the classification list in document MTN.GNS/W /120 or other internationally recognised classification (e.g. Financial Services Annex). If this is not possible, the schedule should contain a sufficiently detailed definition to avoid any ambiguity as to the scope of the commitment. In that respect, the EC would like to recall the classification or list of activities proposed in its negotiating proposals with regard to energy services. While discussions on classification in these sectors are still ongoing, the EC would like to invite Ecuador to present its offer in accordance with this approach.
- that any remaining limitation on market access (hereafter "MA ") or on national treatment (hereafter "NT") are clearly described and only be inscribed in the market access or national treatment columns if the measure is of a nature foreseen by Articles XVI-XVII GATS.

The EC remains available to provide any clarification and answer any question on this request. Questions can be addressed to the European Commission via the EC GATS contact point (mailbox address: TRADE-GATS-CONTACT-POINTS@cec.eu.int), via the Delegation of the European Commission in Geneva, or directly to the European Commission (Directorate-General Trade, Unit D2 (Trade in services, including e-commerce), Brussels, B-1049, Belgium, fax 32-2-299 24 35).

Note: The EC reserves the right to revise and/or supplement this request. For each service sector, W120 classification has been followed unless expressly indicated and CPCs refer to the provisional CPC classification. The precise scope for each sector is without prejudice to the EC's final position on classification issues and to the EC's classification of their existing commitments.

HORIZONTAL COMMITMENTS

EC REQUEST TO ECUADOR

MODE 4

Quantitative Restriction

- 90% of «ordinary» workforce, and 80% of «skilled employees» must be Ecuadorian. **EC Request:** Reduce these percentages

Intra-corporate transferees

An intra-corporate transferee (ICT) is an employee of a foreign firm, who is temporarily transferred to an affiliate of that firm (branch subsidiary, office, joint venture etc.) in Ecuador. The EC considers that Ecuador's current commitments cover intra-corporate transferees who are “managers”, “administrators”, “legal representatives” or “specialists” without application of an economic needs test. **EC request:**

- Please confirm this understanding and clarify whether there are any limitations in relation to the degree of affiliation which must exist between companies, the length of stay or minimum prior employment requirements.
- Make a commitment to allow as intra-corporate transferees without requiring an economic needs test « persons with a university degree or equivalent technical qualification who are transferring for career development purposes or to obtain training in business techniques or methods »

Business Visitors

A Business Visitor is a representative of a foreign services supplier who is seeking temporary entry into the territory of Ecuador for one of the following purposes: (a) to hold meetings and/ or to negotiate the sale of services; (b) to conclude contracts to sell services; or (c) to set up a Mode 3 presence. A Business Visitor does not himself directly provide services or sell to the public. Business Visitors are usually granted entry for 90 days periods at a time. The EC considers that Ecuador's current commitments cover all Business Visitors – entering for any of the purposes indicated above – who are “managers”, “administrators”, “legal representatives” or “specialists” without application of an economic needs test. **EC request:**

- Please confirm this understanding
- For Type (a) and (b) Business Visitors extend the commitment to all such Business Visitors. The maximum length of stay should be at least 90 days in any 12 month period
- For other Business Visitors, clarify whether there are any limitations on the length of stay.

Other

The EC considers that Ecuador's horizontal Mode 4 commitments cover the provision of services under contract where the service supplier has no commercial presence in Ecuador and where that service is provided by "managers", "specialists" and/or "skilled technicians". **EC Request:** Please confirm this understanding and clarify whether there are any limitations on the length of stay.

Note: Mode 4 is covered horizontally in this part for all service sectors. The sectoral requests in the following pages only refer to mode 4 when specifically related to one particular service sector.

EC REQUEST TO ECUADOR

A. MARITIME TRANSPORT

Ecuador has not committed this sector. The EC requests that it be committed as follows:

EC Request: Take commitments in accordance with the attached model schedule (Annex 1). In particular for the following areas:

- 1) **International transport (freight and passengers) CPC 7211 and 7212**
- 2) **Additional commitments for access to and use of ports facilities**
- 3) **Maritime auxiliary services (maritime cargo handling, storage and warehouse services, customs clearance services, container station and depot services, maritime agency services)**
- 4) **Multimodal activities: for inland forwarding of cargoes - commit the ability to rent or lease - or to have access to and use of multimodal facilities (as specified in the note to the schedule).**
- 5) **Definitions – commit definitions as specified in the model schedule.**

The EC also request the following additional maritime commitments from Ecuador:

- 6) **Equipment.** To facilitate planning of their businesses operators should be allowed to reposition their own equipment, such as empty containers, between ports of Ecuador, when it is not carried against payment. This is requested to be committed in a new footnote:

“9. Movement of own equipment. International maritime transport suppliers can move/reposition their own equipment (i.e. empty containers, flatbeds etc.) on their own vessels between ports of Ecuador.”

- 7) **International cargo.** With the development of containerisation and high frequency networking services and with the ever-larger vessels having to limit direct port calls for physical or economic reasons, the feeding of cargoes between main ports and way ports is becoming more important as an integral part of efficient international maritime transport. An international maritime transport supplier should be allowed to operate feeder services for its own international cargo between ports of Ecuador. This is requested to be committed in a new footnote:

“10. International maritime transport suppliers can operate vessels of any flag for the purposes of pre- and onward carriage of the international cargo between ports of Ecuador.”

In this context Ecuador may wish to take the one or more of the following principles into concern:

- Size of the port.
- Binding existing ad hoc practices. To the extent exceptions are already granted for use of foreign flagged vessels such practices could be bound to explicitly cover pre- and onward carriage of international cargo.
- Geographical limitations: Transport of international cargo between ports within the same state [or other relevant sub-federal/regional entity] remains excluded.

Thereby it will bind existing common practices in the sector.
