

JOINT INDUSTRY CALL FOR THE CONCLUSION OF THE EU-INDONESIA FTA NEGOTIATIONS (CEPA) IN 2023

Brussels, 28th of November 2023

Dear Coordinating Minister Airlangga,
Dear Commissioner Dombrovskis,

We, the undersigned associations representing a wide range of companies across diverse sectors of the European and Indonesian economies are writing to you today with a sense of urgency and shared conviction. As negotiations for the Comprehensive Economic Partnership Agreement (CEPA) between the European Union and Indonesia approach a pivotal juncture, we urge both sides to accelerate the pace of negotiations and reach an ambitious agreement in the coming months.

The forthcoming electoral cycles in Indonesia and the European Union underscore the imperative for a swift breakthrough in these negotiations.

We are aware of the challenges involved, but we strongly invite you to grasp the opportunity and work together to find common ground on outstanding issues. A mutually beneficial CEPA agreement requires compromises on both sides. This can only be achieved through active participation in a constructive and open dialogue addressing sensitive issues with direct implications on trade such as sustainability and government procurement.

This accord should mirror our shared commitment to stimulate investment and economic growth, facilitate trade, foster job creation, and uphold the principles of social and environmental sustainability – while ensuring meaningful and tangible market access benefits for all undersigned sectors. We are convinced that in the current uncertain international environment such an unprecedented deal would be perceived as a strong positive signal by investors and the entire business community.

Indonesia and the European Union share a deep history of cooperation and cultural exchange, and we believe that a comprehensive and forward-looking CEPA agreement will further strengthen these ties. We envision an agreement that fosters innovation, enhances market access for all undersigned sectors, reduces trade barriers, reinforces IPR protection and enforcement and promotes a sustainable and inclusive economic agenda. The agreement should foster collaboration to ensure sustainability will drive trade and investment across the two partners and avoid that regulatory action results in market access barriers and trade disputes.

In conclusion, we urgently call on both sides to prioritize the successful conclusion of the EU-Indonesia CEPA negotiations in the next months. Let this be a testament to our commitment to working together in the face of global challenges and in pursuit of shared prosperity. The time to act is now, for the benefit of citizens, workers, and businesses from both sides.

Yours sincerely,
